FINANCIAL.

The fourth, yesterday, passed off better than was expected a week ago, and the market is now in a condition of great activity, although applications for loans are numerous. Exchange is as before, with moderate offerings; some parties are willing to sell at 1-2c. Gold is firm, while it is much in demand and scarce. The quoted rates are as follows: on New York and the East, and on New Orleans, 19c.; on the West, 1-2c. Gold is firm, and is quoted at 112. In stocks and bonds there was nothing new, nor any transaction of interest. In trying to get exchange has had some success, but it is not so good, in many instances taken at 1-2c. day however, the full rate was insisted upon.

NOTES.
New York quoted 19c for midling, Liverpool 10d, New Orleans 19c; this figure showed there was no falling off from the previous day, but the market is more quiet than before, midlings are not equal to yesterday, owing probably to the indisposition of buyers to operate, to any important amount. The market is still very active, and it is to be hoped that it will be almost impossible to distinguish the quality of the cottons. A little ease on the part of factors is to be expected, and it is to be hoped, with a greater protection from less heavy, any erroneous classification. Sales aggregated 1800 bales, exceeding the following rates of midlings, all being held according to former quotations:
